

THE UNCOMFORTABLE TRUTH

Our government seeks to abandon Ireland's policy of neutrality to appease international bodies such as NATO and the EU.

Our Sovereignty is under threat.

Since the inception of the Irish State, we have always held a position of neutrality during wars between other countries.

However our country now seeks to abandon this rational position.

War is horrific and innocent people suffer. Taking sides only escalates the problem and as we are never party to the real issues behind the conflict, it is neither sensible nor moral.

Digital Passports & Digital Currency = Cashless Society

The economic reset (Klaus Schwab's "Great Reset") is now being openly discussed.

Digital passports tied to a controllable central bank digital currency will end the need for cash and in doing so will take away our personal sovereignty and privacy.

Your ability to access your funds could be blocked at any time. Government controlled digital currency is programmable, it can constrain the user and lacks personal privacy

Research Klaus Schwab of the World Economic Forum and his book "The Great Reset"

Free Speech, Hate Speech

Our right to freedom to communicate is under threat.

Proposed "hate speech" legislation will end our ability to express different opinions and openly debate.

Freedom of speech is a basic vital element necessary to maintain a free society.

DEFEND IRISH TERRITORY

STOP toxic goldmining in the Sperrin Mountains

SAY NO to dumping nuclear waste in the inderground sites

STOP the abolition of Tubury Rights

DEFEND THE RIGHT for fishing and seaweed harvesting in Irish waters

THESE ARE OUR SOVEREIGN RIGHTS

Your Right To Own Property Is Under Threat

The Thirty-ninth Amendment of the Constitution (Right to Housing) Bill 2020

The bill proposes to insert, after section 2 of Article 43 of the Constitution:

3.1 The State, in particular, recognises the common good as including the right to secure, affordable, dignified housing, appropriate to need, for all the residents of Ireland and shall guarantee this right through its laws, policies and the prioritisation of resources.

3.2 The State, accordingly, shall delimit the right to private property where it is necessary to ensure the common good and to vindicate the said right to housing for all residents of Ireland.

On the passing of this bill the state would have the authority to requisition your home under a compulsory purchase order if it is deemed necessary for the "common good"

What conditions will cause the Government to "delimit" the owning of private property?

It is not a bill for the right to own your own private home, but a right to be housed as the government sees fit.

This bill alarmingly has the potential for confiscation of people's private property to be repurposed for the "common good".

AN INTERNATIONAL TREATY ON PANDEMIC PREVENTION AND PREPAREDNESS

In Jan 2022 the WHO proposed that all member states sign a new treaty to extend the International Health Regulations 2005 Treaty.

If signed by Stephen Donnelly, the WHO takes precedence over the Constitution of Ireland in the event of a pandemic or "other type of threat or disaster".

Our sovereignty is being stolen away by an institute that puts profit and control before individual health.

Your right to decide if and when to have medical treatment will be taken away.

The people have not been given the opportunity to vote on this extremely important handover of power.
